U.S. Embassy Tokyo

Update to Urgent Message to U.S. Citizen Diamond Princess Passengers and Crew

Thank you for your attention to the urgent message we sent earlier today. We would like to provide the below updates in response to questions that we have been receiving.

First, the baggage limit on board the charter flights is a total of 70 pounds per person, plus one small carry-on that can fit under the seat in front of you. The aircraft does not have overhead bins.

Second, if you or any of your family members taking the charter flight has special needs, for example mobility or supplemental oxygen, please indicate this in your reply email. Likewise, if you have a service animal, please let us know immediately.

Finally, please be aware we will be sending additional information in the coming hours that will expand upon several issues addressed by our message this afternoon regarding the planned repatriation operation. We greatly appreciate your continued patience and understanding as we prepare to move forward on this effort.

Please note that if you want to take the charter flights, we must receive your confirmation no later than **10:00 AM February 16.**
